STEVEN GANDHAM

Software Engineer II | Backend Systems and Cloud Architecture | Realtor.com

HOW I WORK: Communicate clearly • Set the correct priorities • Do the work with the largest impact first

1 • PEOPLE AND SYSTEMS I SERVE

Accounts and Sign-in • Communications • Payments

Security • Customer Support • Partner Systems

2 • WHAT I BUILD

Backend APIs in Node.js • Sign-in and Access (Auth0, SSO)

Permissions • React Web Pages • RESTful APIs

3 • AI MULTIPLIER

Claude Code workflows: Ticket → Code → Review → Production, plus compliance checks

Open-source workflows that force-multiply the team and the company

4 • CLOUD PLATFORM (AWS)

Lambda • Step Functions • S3 • API Gateway

Serverless Design • Event-Driven Systems

5 • DATA AND FOUNDATION

PostgreSQL • MongoDB • MySQL • MS SQL

JavaScript, Python, SQL, Java, C, Bash • Docker, Splunk, SonarQube, Jenkins, CircleCI, ArgoCD

PROVEN IMPACT

70+
repositories in my career

1,000+
fixes in my career

200+
security vulnerabilities fixed

70+
projects made compliant

$400K+
saved from untracked records

1.5M+
customers served by my APIs

90%+
test coverage

280%
team efficiency gain, one tool

MY HISTORY

2016 - 2020	2017 and 2018	2019	2021 - 2024	2024 - Present
Cal Poly, San Luis Obispo	**Realtor.com**	**Scorpion.co**	**Realtor.com**	**Realtor.com**
